

In response to your letter dated February 1, 2006 regarding the November Monthly Report (10/1/05-10/31/05) please note that the Committee has filed an amended report to address the aggregate issues with the two identified donors and the in-kind reporting issue as you discussed.

You have stated that it appeared that the Committee exceeded limits regarding the special election in CA-48. We have clarified the contributions to show one for Special General Debt Retirement and one for Special Runoff. The year of the election had defaulted to 2006 and we have corrected that to show the correct year of the special election to be 2005.

You have stated that the Committee disclosed a refund to a political party committee on line 21(b). The only disbursement made by the Committee to another political party committee was payable to the Republican National Committee for "Generic Building Lease Expense." That disbursement was correctly disclosed on Schedule B supporting Line 21(b) as it was not a refund.

Please contact me with any further questions. Thank you.
